WORK EXPERIENCE

DAN-BUL CONSULTANT AGENCY, WEB DEVELOPER
INTERN

AUGUST 2019 - DECEMBER 2019

- Took part of the site re-designing
- Building membership based portal for the needs of the company
- Used technology was WordPress
- Writing CSS, JavaScript and PHP code depending on the current needs

ID-ADVICE APS, JUNIOR FRONT-END DEVELOPER
INTERN

JANUARY 2018 - APRIL 2018

- Worked on a project that was just launching
- Took part in meetings with client. I was coming up with design ideas through sketching, wire-framing, building mock-ups of the application we were building
- Main responsibility was to put these mock-ups in the front-end of the application through using HTML, CSS, Bootstrap, JavaScript and JQuery
- The development process followed the Agile methodology with SCRUM meetings on a daily basis
